A propos

WINDGLAZ performs engineering studies in the field of offshore and floating wind energy.

With 12 years of experience in this field, we offer services from load cases definition to coupled simulations calculation through design of floating structures for offshore floating wind farms. Mooring systems analysis and Hydrodynamic studies are also part of our capabilities.

Floating or fixed foundation designer, Wind turbine manufacturer, Utility, do not hesitate to contact us to tell us more about your project, we will understand your requirements and contribute to your project's achievement.
