@about_me_label

A propos

Passionate about how new technologies can help people's lives, Victor launched from scratch Ubudu Asia operations in Hong Kong in 2015 and has since been developing Ubudu activities in the APAC region to help hospitals, factories, offices and warehouses make their operations more efficient and safe.

Under Victor's leadership, Ubudu has won prestigious awards in Asia such as Slingshot and ICT Awards in Singapore, Melco Resorts in Macau and Mob-Ex Awards through Accenture partner in Hong Kong.

From this experience, Victor has built extensive knowledge on how geolocation technologies and IoT solutions can be used for different applications in multiple sectors.

Victor is now in charge of the business development of Ubudu globally with a current focus in helping companies ensure workplace safety for business continuity during the pandemic through social distancing.

Ubudu's mission is to make operations in physical sites more efficient and safe thanks to geolocation technologies fully developed in-house.

Victor holds a MSc from EM Lyon and a BSc from University of Bath.
