FOWT 2025 BREST - CALL FOR ABSTRACTS

Image

CALL FOR ABSTRACTS

FOWT 2025: April 23-25, 2025, Brest, France
DEADLINE: November 29th, 2024, 4 p.m. Paris time
(CET)

The FOWT 2025 Organization Committee is pleased to announce the official **Call for Abstracts** for the largest floating offshore wind event worldwide. **FOWT 2025 will take place from April 23-25, 2025, in Brest (Brittany), France, and will feature plenary and technical sessions.**

We invite you to submit original abstracts that align with the topics detailed below. Selected speakers will have the opportunity to present at this premier international event in front of key industry players, decision-makers, and technical experts.

Key themes include:

- **Harbours & supply chain:** Preparing ports as hubs for serial fabrication, offshore operations, and supply chain readiness.
- **Environmental impact & co-activity:** Balancing economic activities with environmental protection—challenges and success stories.
- **Tendering & permitting:** Navigating non-price criteria and rising costs.
- **Operation & Maintenance:** Developing cost-effective and safe O&M solutions.
- **Delivering floating electricity:** Tackling challenges and offering solutions for reliable, cost-effective energy delivery.
- **Win/win interface risk management solutions:** How to share project risks constructively without affecting economic viability or delivery timelines.

Plenary Sessions

Submissions for plenary sessions should address high-level, experience-based topics and be accessible to a general professional audience.

and ecosystems.

Technical Sessions What we are looking for ?

High level abstracts that are highly technical and experiential, aimed at highly specialized audience. Your abstract should be original and specifically prepared for FOWT 2025. At FOWT we prize the “best of science” and “best of technology,” with a strict “no pay-to-speak” policy. This also means that any abstract containing a strong commercial/pitch aspect will be rejected.

Topics include:

- **Numerical and AI tools** to enhance FOWT design and operations.
- **FOWT testing:** Innovative trials in laboratories and at sea.
- **Wind farm monitoring:** Understanding wind resources, wakes,
- **Deadline: November 15th, 2024, by 4 p.m. Paris time (CET)**
- **Format:** PDF A4
- **Font:** Arial, 11 pt, single spacing
- **Language:** English
- Send your submissions to: contact@fowt-conferences.com.

Don't miss this opportunity to share your expertise with the global leaders in floating offshore wind at **FOWT 2025!**

We eagerly await your proposals.

The FOWT Organization Committee

The O **Send your proposal** e, made up of the Mediterranean maritime and coastal economy cluster, Pôle Mer Méditerranée, and the French electrical renewables association, France Renewables are already hard at work to make the 2025 edition an even bigger success.
