ENTSO-E confirms successful synchronization of the Continental European electricity system with the systems of the Baltic countries

Image

ENTSO-E announces the successful synchronization of the electricity systems of the Baltic states with the electricity system of Continental Europe. This historic event is a key milestone for the Baltic States and for Europe strengthening the energy resilience and independence across the region. This achievement underlines the substantial and leading role of ENTSO-E in facilitating European cooperation and enhancing the stability of the interconnected power system.
